Birthdate: January 21, 2004

CAREER OBJECTIVE

I am a recent IT graduate with a focus on programming and technical. I am interested in how AI can improve user experience and I enjoy building applications that are supported by organized, scalable data. I am eager to apply my technical skills to real-world projects and continue growing as a developer.

SKILLS

- Flutter, Php, React,
- Web App Development (Laravel)
- Mobile App Development (Flutter)
- MySQL, Firebase
- UI/UX Design & Basic Web Development
- Figma
- Canva

TRAININGS

- Stakeholders System (Intern Project)

Developed a stakeholder management system with role-based access for the Board of Directors (BOD), MCOPE, and Electricians, featuring an automated verification method to validate applicant data through server-side retrieval.

- Technical
- Networking

PROJECTS

Furevercare (capstone project)

Developed a cross-platform ecosystem designed to modernize veterinary services by integrating digital health cards, appointment scheduling, and inventory management.

Helpdesk

Developed a web-based IT Ticketing System to make service requests easier by using automatic due dates, real-time tracking, and clear status updates.

Coffee Shop

Frontend UI for POS system (React)

Album

Streamlined digital gallery designed for browsing and showcasing photo collections. (Svelte)

Enhanced a 2D game FALL: Rise to Glory

Building custom adventure levels and modifying existing mechanics to create a more challenging user experience.

Boxing

Created a 2D two-player boxing game featuring eight (8) unique characters and specialized skill systems designed for shared-keyboard gameplay.

ACADEMIC HISTORY

NCSAT

Electronics Strand

STI COLLEGE NAGA

Bachelor of Science in Information Technology
